

LunchBox

No Cash? No Problem!

LunchBox Vending

Participants can select reimbursable meals and a la carte items from a vending machine with the same quick and accurate PIN pad identification used at your serving lines. Students qualified to eat free and participants with a prepaid balance can take advantage of this convenient technology without cash and without waiting in the serving line.

How Can Your Operation Benefit?

- Increased sales – students love the concept!
- Increased visibility – vending machines can be placed anywhere on campus and attract students who wouldn't ordinarily visit the cafeteria.
- Increased profit – sell more reimbursable meals!

- ✓ **Interfaces directly with LunchBox**
